Stanislav Bogatskiy

Backend Python Developer - Geekfactor
Moscow, Moscow City, Russia

Summary

As a Python backend developer with over 3 years of experience,
I have a strong understanding of the core principles of software
development and a proven track record of delivering high-quality
solutions. My expertise extends to popular frameworks such as
Django, Flask, and FastAPI, allowing me to design and implement
robust backend systems that meet the unique needs of each project.
With a focus on scalability, reliability, and maintainability, I strive
to create software that not only meets but exceeds expectations.
Whether working independently or as part of a team, I am committed
to delivering exceptional results that drive business success.
